

Karamoja Prayer Requests – March 2004

- Joseph Lomongin, the Mission Co-ordinator, recently led another peace and reconciliation event. These events are partly funded by our link and aim to bring together some of the different tribal groups in the area which have historically been enemies. Please pray that this event will have a positive impact on those who attended and that more events like this can be held in the future.
- The link churches in the Alton area are planning to send a small group of people out to Karamoja later this year. Please pray that the right people would be able to go and that all the arrangements fall into place.
- There are currently 12 students studying the 2-year Advanced Church Teachers Course at the Diocesan Training Centre (DTC) in Lotome. The students are progressing well but most of their supporting home churches are unable to meet the modest course fees, let alone their transport or living costs. They have made an incredible sacrifice as they are not earning to provide for their families whilst studying. Please pray that they will be able to complete their studies and that they will enable the Church to grow. Pray also for their families and home churches.
- Please continue to pray for Caleb and the Youth Training Centre. We are still awaiting news as to whether they were able to start their courses on 2nd February as planned. Teachers had been found but the initial funds for their pay were still being sought.
- As some will have seen on the news recently, the “Lord’s Resistance Army” has launched more attacks elsewhere in Uganda, although these seem to be increasingly further away from Karamoja. Please pray that key members of this group would encounter God’s love and that the cycle of violence and terror would start to be reversed. Pray also that the LRA does not stop the work of the Church in Karamoja as they aim to bring Good News to those around them.
