

## Karamoja Prayer Requests – September 2004

**Rev Joseph Lomongin** has asked us to pray for him as he works in his new post as Diocesan Secretary. Over the next month Joseph will be travelling around Karamoja visiting each deaconry to assess how he can best help support the church. Please pray for security as he and a member of the diocesan office team travel around the diocese.

**Security:** Cattle rustling and road ambushes are still happening in certain areas of Karamoja. Please continue to pray for peace between the rival tribes.

**Rains:** Drought has destroyed most crops in the Karamoja region. Serious famine is anticipated in the coming year. Let us pray that the second rain season, from August to October, will provide enough rain to support some crops and pray for God's continued provision.

**Diocesan Training Centre:** Please thank God that the needed renovations of the Diocesan Training Centre (DTC) have taken place. Solar lights have been installed in the college and staff houses have been renovated.

Please pray for God's continued provision for the centre. The Rev. Joseph Abura, principle of the DTC, has asked us to pray that enough food will become available for the returning students.

**Clergy and Church Workers:** The Rev Joseph Lomongin has asked us to pray for all those who work for the church in Karamoja. He is concerned that some of the clergy have become dishearten or lost their vision for the Gospel. Please pray that God will encourage the clergy as they face many difficult challenges.

**Deanery Visit:** Please continue to pray for the arrangements, especially the fundraising to pay for flights, expenses and gifts for the church in Karamoja. Please also pray for peace for each member of the team and their families.
