

Karamoja Prayer Requests – March 2005

Church of the Good Shepherd, Lotome:

- Three members of the church have been killed in tribal violence. Please pray for the congregation who are experiencing anger and desperation due to these tragic events.
- Rev. Richard Ongom, the church pastor, is unwell with angina. Please pray that God will sustain and heal him.
- At the daughter church in Lorangdoit the roof has blown off. Please pray that the church will find a solution to this problem.

Famine: The UN's World Food Programme has been slow to respond to the famine in Karamoja and there is growing anxiety. People are camping outside the church compound at Lotome begging for food. Please pray that God will give wisdom to those who could respond to this problem. Please continue to pray for the clergy in Karamoja who have to share the little they have with so many.

Disarmament: The army has been called to enforce the Ugandan government's disarmament process in Karamoja. This is a very sensitive issue as many in Karamoja are resisting disarmament. Please continue to pray that the process is carried out peacefully by all involved and does not lead to more violence.

Future of the Diocese: There will be a meeting later on this year to discuss the possibility of splitting the diocese of Karamoja into two smaller dioceses. Opinions differ about the benefits this would bring. Prayer is needed for those involved that they make the best decision.

Visit: Following Simon Aisu's visit to the UK in 2003, we are hoping to welcome another member of the Karamoja clergy later this year. Please pray for Bishop Peter as he chooses who should come and for all the arrangements.
