

Karamoja Prayer Requests – April 2005

Items For Thanksgiving

- The church at Iriiri is now complete and will be blessed by the Bishop on 10th April.
- The walls of the new building at the Diocesan Admin block in Moroto have now been built up to ring beam level (full height).

Thank God for these developments and pray that they will bear fruit.

Famine

There has still been rain but still no proper rain. Some people from the villages are now dying and others have gone to the towns to beg for food. This is now a huge problem for pastors who are often the first port of call. The UN World Food Programme is providing food for children who attend school but not others. Please pray for the pastors as they face an impossible task. Also continue to pray for sustained rain to produce a good harvest and renew people's hopes.

Insecurity

There have been more raids and ambushes on the roads. Please pray for protection for all diocesan staff as they travel as part of their work.

Buildings

There are currently lots of parish projects to either build or to improve buildings, some of which have been damaged by high winds. Many of these projects are unable to progress due to the high cost of technical advice and materials (i.e. cement, iron gates etc.) which cannot be sourced locally.

Bishop Peter

The bishop is very weak, having been unwell. He is currently on 'sick bed rest'. Please pray that he will make a full and speedy recovery.
