

### **Karamoja Prayer Requests – May 2005**

**Roads:** Road accident - 2 children were killed as they travelled north for their holidays. Please pray for their families and for those who were injured in the crash.

Rev Joseph Lomongin, Rev Nelson Owili and Caleb were involved in an attempted ambush. Two shots were fired at their vehicle so they travelled as quickly as they could to get away from their attackers. While they were travelling they crashed and had to run away into the bush for safety. After two hours they were able to get a mobile phone signal and were rescued by the army. When they returned to the vehicle all their possession had been stolen.

Please pray for the safety of those travelling to the provincial meetings in Kampala at the end of May and mid-way through June.

#### **Development Work:**

Please pray for Nelson Owili, the Diocesan Development Officer, as he writes to development organisations to help fund his “food for work” programme. This is an excellent scheme which will provide food for those most in need whilst at the same time being able to move forward with development projects.

Please pray also for members of the Alton Deanery Committee who will write to organisations to promote Nelson’s work. Please pray that these letters bear fruit.

**Rain:** Rains have fallen in Karamoja and people are now beginning to plant their crops. Please pray that the rain will continue and that the crops may grow successfully.

**DTC:** The students at the Diocesan Training Centre, Lotome, will be taking their exams soon. Please pray for them and their families at this time, that God would honour their commitment to his work.

**Visit:** It is hoped that Rev. Joseph Lomongin, Diocesan Secretary, will be able to visit us later on this year. Please pray for all the arrangements especially the visa applications.
