

## Karamoja Prayer Requests - January 2006

**General Election:** This will be held in early spring. The campaigning is gaining momentum and there have already been reports of opposition members being arrested. Please pray that the elections will be carried out justly and democratically. Pray also that God will give Uganda's elected leaders wisdom to meet the needs of the whole country.

**Future of the Diocese:** Decisions about the future of the Diocese are still ongoing. Please pray for the archbishop and his staff as they consider all the issues. Pray also for Bishop Peter Lomongin, for his work in the diocese and the appointment of a new Mission Co-ordinator.

**Food:** Most people now have enough to eat. The Diocese Development Office is providing training to help families manage their food supplies effectively. At present many large celebrations often happen in times of plenty, leaving little for harder times.

**Security:** Please continue to pray for the security of diocesan staff as they travel around Karamoja as part of their work.

**Land Registration:** The Diocese is in the process of registering various pieces of land on which their churches and other buildings stand. This will protect the land from neighbouring developments and ensure that the boundaries will appear on future national maps. Please pray that the process goes smoothly and no unforeseen problems are encountered.
