

Karamoja Prayer Requests - August 2006

New Bishop: The Diocesan Council headed by the Bishop of neighbouring Soroti will meet on 12th August to put forward names for the future bishop of Karamoja. Please pray that God will bring forward the right candidate for this post and that Christians in Karamoja will seek your will.

Development Department: The Development Office has received the final report from the External Evaluation Consultants. Nelson is now drawing up a 3-year strategic plan to share with development partners. The plan will aim to focus on increasing independence and sustainability. Please pray for God's guidance as the plan is drawn up and also that the partners will support the plan.

Mission Department: Caleb is organising a meeting on 11th August to plan diocesan mission work for the coming years. This is now even more important as increasing numbers of parishioners are leaving the church to join religious sects. Please pray that those attending the planning meeting will seek God's guidance and be united and encouraged in their work.

Rain: Some rain has now fallen on parts of Karamoja and there will be a limited harvest. Please pray for those whose harvest prospects to not look good this year.

Pastors: Due to the continuing shortage of food, many parishioners are unable to support their pastor. Some pastors are now unable to fund their children's education and children have been sent home from school. Morale amongst the pastors is low at the moment. Please pray that God will provide for their needs and honour their commitment.

Insecurity: Some of the Karamajong are still resisting the Ugandan Government's attempts to disarm them. Please pray that people will lay down their arms and that God will bring peace.

Travel: The continued food shortage has resulted in more ambushes on the roads and two people have died recently. Please continue to pray for God's protection over all those to travel as part of their work.
