

## Karamoja Prayer Requests - September 2006

**New Bishops:** Two new bishops (one to carry on the work of the late Peter Lomongin and the other to lead the new Northern Diocese) will be nominated on 3<sup>rd</sup> November and selected on 8<sup>th</sup> December. Please pray that the right candidates will be put forward for these posts and that God's will be done throughout the selection process. Many pastors and diocesan staff are looking forward to the appointments as it will enable them to move forward with their work. Please pray for them in the meantime that God will give them the direction they need. Pray also for the bishop of neighbouring Soroti Diocese who has been appointed "caretaker bishop" as he currently has a great deal of responsibility.

**Development Department:** There have been continued difficulties in transferring money for the Mothers Union Poultry Project. Please pray that the staff at all banks concerned are able to find and resolve the cause of the problem so that this project can start to help those in the Kotido area.

**Mission Department:** There was a successful and unifying meeting of the Mission Board on 11<sup>th</sup> August. Members agreed on many action points which will enable the department to bring God's message to those in Karamoja. Please pray for guidance, help and progress with the actions from this meeting.

**Rain:** Karamoja now has more rain but it is too late for the crops. Some areas have been able to harvest but others have not and are expecting famine next year.

**Travel:** The mechanic who is working on the diocesan vehicle is refusing to release it until payment is received. However, the total for the repair work is more than expected. Please pray for God's will to be done in this situation.

**Insecurity:** There had been encouraging news about the disarmament programme. A peace agreement has been signed with groups who were resisting disarmament and arms will hopefully be given up shortly. Please pray that the process is completed peacefully, that promises are kept and the progress helps to bring more stability to the region.
